Either one works for me.

Hi Michael,

Thank you for the update! I am available for a call at 11 am or 1pm (Central). Would either of those times work for you and Tom?

Thanks!

Matt,

Sorry for being out of touch. Do you have time for a call tomorrow?

You are wondering about the city meeting. We are looking at dates in mid to late February. I would still like you to attend and gather information.

Thanks,

Michael

Hi Tom and Michael,

I hope you both are doing well. Just checking in to see whether we are ready to move forward with the Allied reuse assistance based on the work plan (attached). Michael, do you know when the City's meeting is taking place. I think you had mentioned January. We are ready to move forward when you are.

Thanks.

Hi Folks,

Tom, thanks for your feedback on the workplan. Per your request, we have added "approximate" to the right-hand column in the work plan table. Michael, do you have any input for us on the work plan? Any word from the City on potential for a call before the holidays to discuss the scope of City and EPA efforts?

Hi Tom and Michael,

Skeo Solutions has developed the attached work plan outlining reuse support tasks for the Allied Landfill site. Based on our December 4th Kick-off call, we have included a combination of technical analysis, facilitation and stakeholder engagement activities that support two-EPA led public availability sessions. We did not discuss specific time frames for the public availability sessions on the call, however, the work plan includes potential timeframes as a reference and can be modified based on what you all envision.

Next Steps:

- Tom and Michael review draft work plan and provide comments (ideally by 12/17)
- Skeo to finalize work plan based on EPA comments
- Michael to coordinate conference call with EPA, Skeo and City to discuss the City's process and EPA reuse support (timing TBD)
- Confirm date for City-led meeting in January.
- Other items?

Feel free to give me a call with any questions at 434-975-6700 x278.

Thank you.

Matt Robbie
